

The Town of Saint Andrews Municipal Planning Update

The Town of Saint Andrews doing an update of the 2010 Municipal Plan and Zoning Bylaw. The Municipal Plan is a document that your Council uses to ensure they are making decisions that are in the public's best interests. The Town is mandated by the Provincial Community Planning Act to do a review of the Plan once every ten years. This process is being led by a steering committee made up of town councillors, institutional representatives, and other members of the community, with planning assistance from the Southwest New Brunswick Regional Service Commission (SNBSC).

In total, this is a two-year process. Over the next two years we will be looking to YOU, and the community at large to ensure that the steering committee and SNBSC are on the right track. There are several opportunities to be involved in this process and we are approaching the first one.

The steering committee has been formulating a community vision and determining which issues from the last plan are most pressing today. **You are invited to a forum to give feedback on the proposed vision and which issues should be prioritized in the updated plan. The forum will be held on**

June 7th 2018 from 4:00-7:00 pm at the W.C. O'Neil Arena Dining Room.

There are no formal presentations so feel free to drop in any time. Members of the steering committee will be there to obtain feedback and answer any questions you may have.

If you would like more information, have questions, or have concerns, a planner from SNBSC can be reached by email at alexander.gopen@snbsc.ca or by phone from 8am-4pm at 506-466-3450. The current (2010) plan can be found on the Town's website: <http://www.townofstandrews.ca>

Town Vision and Plan Update Survey

If Saint Andrews is a ship sailing to a port over the horizon, the vision statement is that port. The statement should encapsulate what Saint Andrews should be in 2030 and the rest of the plan will help us get there. The vision is answering the question, "What should Saint Andrews be in 2030?" The Saint Andrews Municipal Plan Update Steering Committee has created the following vision statement:

"Saint Andrews will be a centre of education and marine science, a top year-round tourist destination, and a vibrant community for residents of all ages by protecting and promoting its natural environment, architectural heritage, and its recreational and cultural assets."

Do you agree with the general sentiment of this vision?

Yes

No

If no, please provide your own vision.

If you cannot attend the community forum on June 7th you can still give feedback through this survey:

The 2010 plan is focused on the topic areas listed below. *Please check the **one (1)** area you think is most important for Saint Andrews to work on going forward. If something is missing, add your own to the list. Then please explain your choice in the next section.*

- Environment (protection, enhancement, outdoor recreation)
- Heritage (historic buildings/areas)
- Culture (arts, culture, recreation)
- General Land Use & Development
- Economy (economic development, employment)
- Institutional (schools, research institutions, health care, cemeteries)
- Infrastructure & Services (water supply, sewage, transportation, emergency services, utilities)
- Housing
- Navy Island

Why is this issue important to Saint Andrews?

If you have other comments about Saint Andrews' future or its planning bylaws, please share here:

Please drop off (or mail, or email) this survey to the Town Administration Building at 212 Water St. between the hours of 8:30am-4:30pm before June 14th 2018, or town@townofstandrews.ca This exact same survey can be completed online by visiting www.snbsc.ca

Thank you for taking the time to participate in shaping the future of Saint Andrews!
